Adjust PDF Views

While reading a PDF file, you can enhance your PDF viewing with the following features:

- Tabs Reading Mode
- Page Display Mode Settings
- Resize Pages to Fit the window
- Adjust Screen Brightness
- Night Mode
- Text Reflow
- Screen Lock
- Crop Mode Settings
- Zoom In and Zoom Out Settings
- Pan and Zoom PDFs

Tabs Reading Mode

Tabs Reading feature enables you to open multiple PDF documents in a single instance. To switch to Tabs Reading Mode:

1. Launch the Complete PDF Viewer demo;
2. On the file selector pane, Tap ▭ at the top-right corner;
3. Tap **Yes** in the pop-up dialog to switch to tabs reading mode.

Page Display Mode Settings

1. On the document pane, tap **View** on the toolbar;
2. Choose an option:
    ➢ **Single**: Display one page at a time. You can swipe left or right to navigate through pages.
    ➢ **Continuous**: Display the pages in a continuous vertical column. You can swipe up or down to navigate through pages.
    ➢ **Facing**: Display two pages side by side. You can swipe left or right to navigate through pages.
    ➢ **Cover:** Display the cover page separately while in facing mode. You can swipe left or right to navigate through pages.

Resize Pages to Fit the Window

1. On the document pane, tap **View** on the toolbar;
2. Choose an option:
   - ➢ **Fit Page:** Resize the pages to fit entirely in the document pane.
   - ➢ **Fit Width**: Resize the pages to fit the width of the window. Part of the page may be out of view.

Adjust Screen Brightness

By default, Complete PDF Viewer will adjust the brightness of the screen based on the system's brightness levels. To adjust the screen brightness manually:

1. On the document pane, tap **View** on the toolbar;
2. Tap ⬤ to disable Auto-Brightness;
3. Drag the slider to adjust the brightness.

Night Mode

Night Mode allows easier reading in low light conditions by inverting black and white in your documents, which helps to relieve eye strain as well as save the device's battery. To switch to Night Mode:

1. On the document pane, tap **View** on the toolbar;
2. Tap 🌙 .
3. If you need to switch back to Day Mode, tap 🌙 .

Text Reflow

To access the text reflow mode:
1. On the document pane, tap **View** on the toolbar;
2. Tap **Reflow**.

In the text reflow mode, change the settings as desired by doing the following:

1. Tap A^+ to increase the font size;

2. Tap A^- to decrease the font size;

3. Tap ⊘ to jump to the previous page;

4. Tap ⊘ to jump to the next page;

5. Tap ⦂☰ to jump to the navigation panel;

6. Tap 🖼 to hide or show all of the pictures in the PDF file.

To exit the text reflow mode:

Tap ← on the toolbar at the top.

Screen Lock

Screen Lock allows you to lock the screen in portrait or landscape mode to prevent screen rotating when your device is physically rotated. To lock the screen:

1. On the document pane, tap **View** on the toolbar;
2. Tap **Screen Lock**;
3. Choose one of the options:
    ➢   Landscape: Lock the screen in landscape mode;
    ➢   Portrait: Lock the screen in portrait mode.
If you need to unlock the screen orientation, tap **Screen Lock** again, and choose **Auto-rotate with screen**.

Crop Mode Settings

Crop mode helps you remove unnecessary document margins and extra white space for a better reading experience.

To crop the document margins:

1. On the document pane, tap **View** on the toolbar;
2. Tap **Crop mode**;

3. Do one of the following:
    - Choose **Smart Crop** for auto-cropping;
    - Drag the handle to adjust the crop area, and tap **Crop**. Or Tap **Detect** to detect the margins, and tap **Crop**.

To restore the cropped margins, tap **Crop mode** again, and choose **No Crop**.

Zoom In and Zoom Out Settings

Choose one of the following to zoom in or out of the PDF file:

1. Use the two-finger pinch gesture;
2. Double tap on the screen.

Pan and Zoom PDFs

Pan and Zoom feature adjusts the magnification and position of the view area to match the area in an adjustable rectangle in the Pan & Zoom window's thumbnail view of the page.

To pan and zoom PDFs:

1. On the document pane, tap **View** on the toolbar;
2. Swipe left to find the **Pan Zoom** tool;
3. Do any of the following:
    - Drag the handles of the box in the Pan & Zoom window to change the document magnification.
    - Drag the center of the box to pan across the area you want to see.
    - Click the navigation buttons ⊲ ⊳ to move to the previous or next page.
    - Drag the slider ⊖ -○—— ⊕ to increase or decrease the magnification by preset levels.

Navigate and Find Content

Complete PDF Viewer provides multiple ways to help you navigate and find content:

- Navigate through a PDF File
- Jump to a Specific Chapter with Outline
- Jump to a Specific Page
- Jump to a Designated Location with Link
- Search and Find Text

Navigate through a PDF File

Swipe up or down to scroll through a PDF file. In Single page display mode, you can swipe left or right to turn pages.

Jump to a Specific Chapter with Outline

1. On the document pane, tap **List** to open the navigation panel;

2. Tap ⊟ to open the outline panel;

3. Navigate through the outlines, and tap the outline to jump to the specific chapter.
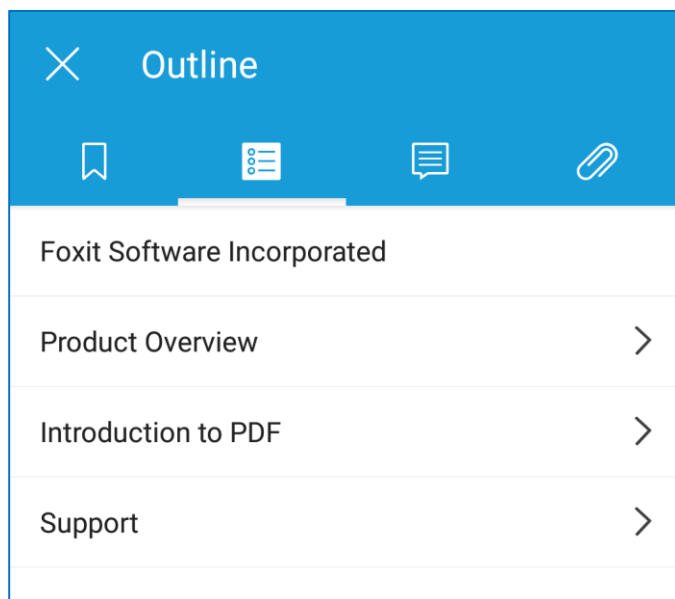

Jump to a Specific Page

Jump to a Specific Page with Page Number

1. On the document pane, tap the page number indicator (1/5);
2. Enter the page number in the dialog box;
3. Tap **GO**.

> 🔍 1/5   GO

Tip: If a PDF file contains logical page numbers, Complete PDF Viewer can display the logical page number on the page number indicator. You can input the corresponding physical page number to jump to the specific page.

Jump to a Specific Page with Page Thumbnail

1. Tap **View** on the document pane;
2. Tap **Thumbnail** to open the page thumbnail window;
3. Tap on a page thumbnail to jump to the selected page.
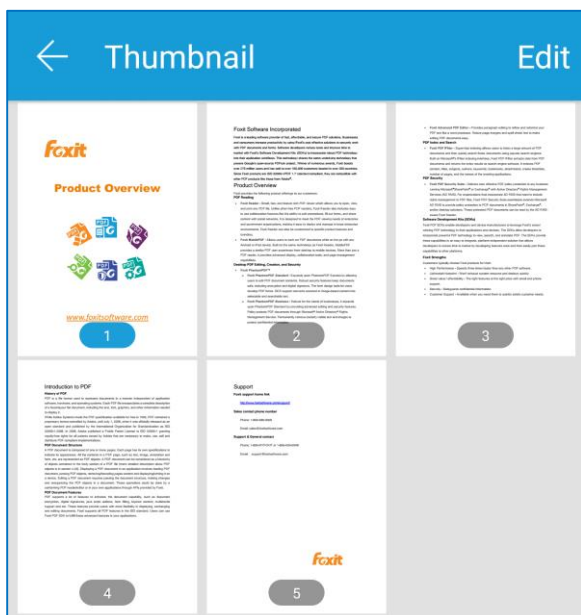

Tips:
1. Before jumping to the specific page, you can tap ⬅ to close the page thumbnail window.
2. If you want to edit the pages, tap **Edit**, and then refer to "Edit pages" section for details.

Jump to a Specific Page with Reading Bookmarks

If you have saved pages as reading bookmarks, you can jump to that specific page by selecting the bookmark. Steps are as follows:

1. On the document pane, tap **List** to open the navigation panel;

2. Tap [ ] to open the reading bookmark pane;

3. Navigate through the bookmarks, and tap the bookmark to jump to the specific page.

Tip: If you want to bookmark a page, tap [ ] on the toolbar on the document pane.
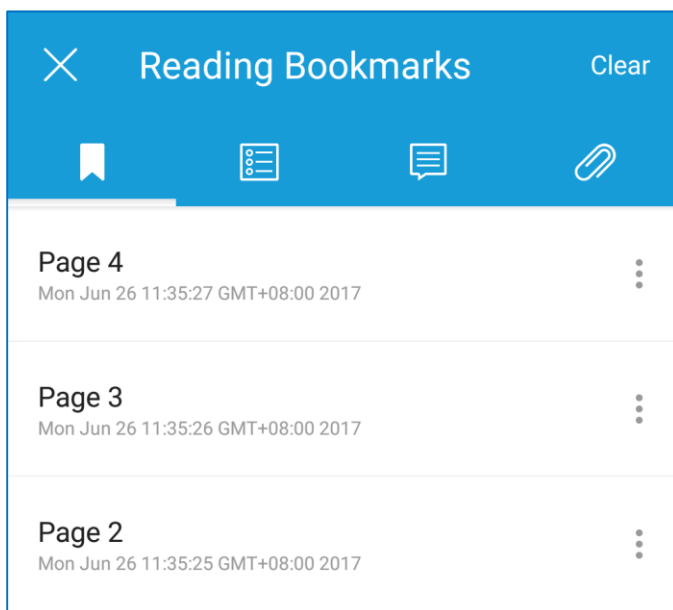

Jump to a Designated Location

If the PDF file contains links, you can tap the link directly to jump to the designated location in the current document or website.

Search and Find Text

Search Text within the PDF file

1. Tap ◯ on the toolbar at the top;

2. Input the text in the search box;

3. Tap **Enter**;

4. Tap ◁ or ▷ to jump to the previous or next search results;

5. Tap ⊟ to display the search results;

6. Tap **Cancel** to cancel the search.
Edit Pages

Complete PDF Viewer supports editing page with the following features:

- Insert pages
- Extract pages
- Rotate pages
- Exchange pages
- Delete pages
- Copy pages

Insert pages

1. Tap **View** on the document pane;
2. Tap **Thumbnail** to open the page thumbnail window;
3. Tap **Edit** on the toolbar at the top;
4. Choose a page, tap ⊞ to select the PDF file that you want to insert. You can insert PDF pages from files/album/camera. From version 6.4, it supports adding blank pages with custom style.

    Note: *The added PDF pages will be followed the page you choose.*

Tips: you can swipe left on a page to popup the insert menu, tap 🔲 to insert the selected PDF file before the page, tap 🔲 to insert the selected PDF pages after the page.
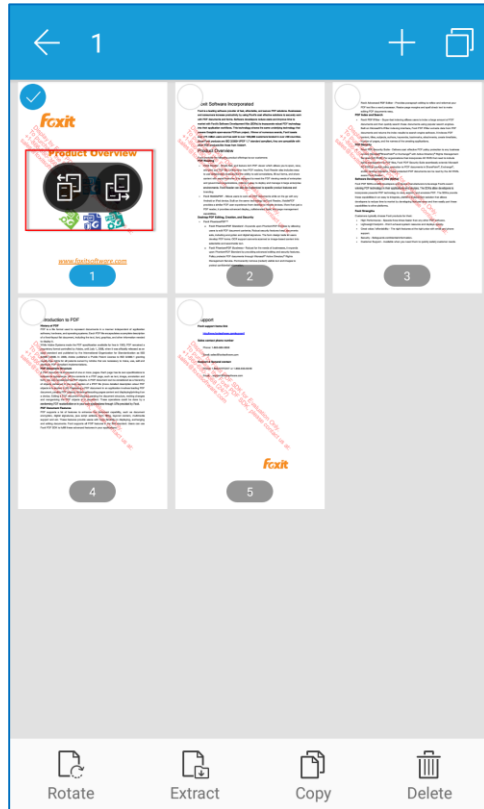

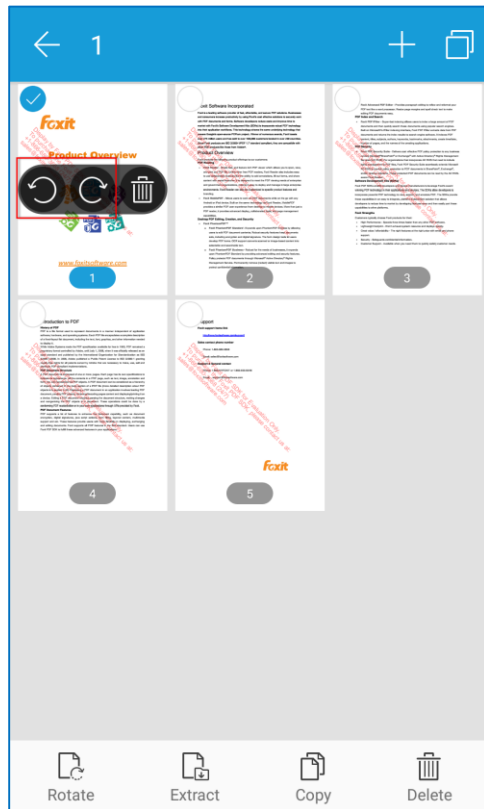

Extract pages

1. Tap **View** on the document pane;
2. Tap **Thumbnail** to open the page thumbnail window;
3. Tap **Edit** on the toolbar at the top;
4. Choose the pages that you want to extract;
5. Tap ;
6. Select a folder where you want to store the pages, and tap **OK**;
7. Input the file name;
8. Tap **OK**.
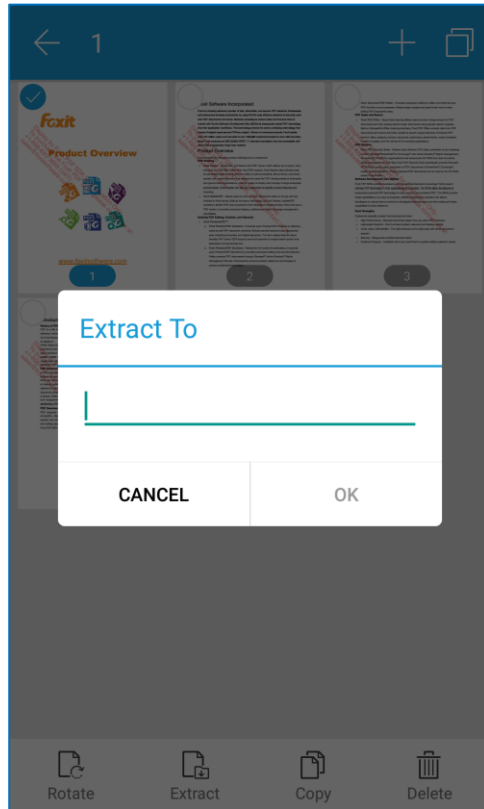

Rotate pages

1. Tap **View** on the document pane;
2. Tap **Thumbnail** to open the page thumbnail window;
3. Tap **Edit** on the toolbar at the top;
4. Choose the pages that you want to rotate;
5. Tap to rotate the selected pages clockwise.

Tips: you can swipe right on a page to popup the rotation menu, tap to rotate the page counterclockwise, and tap to rotate the page clockwise.
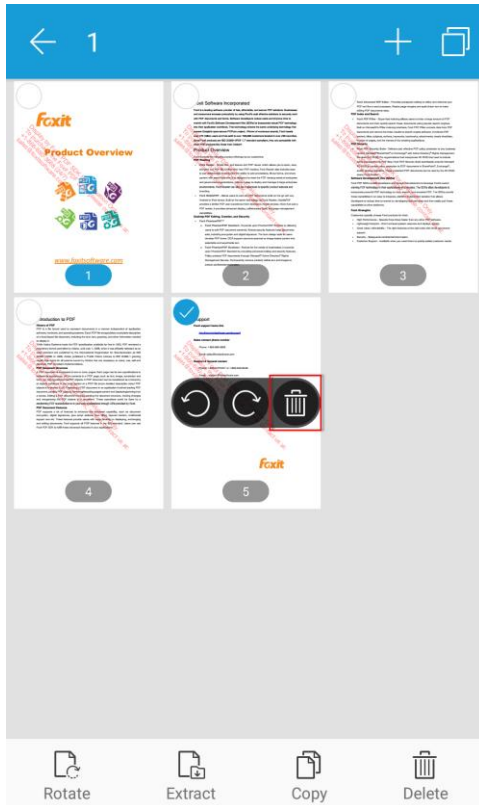

Exchange pages

1. Tap **View** on the document pane;
2. Tap **Thumbnail** to open the page thumbnail window;
3. Tap **Edit** on the toolbar at the top;
4. Choose a page, drag and drop it to the place as desired.

Delete pages

1. Tap **View** on the document pane;
2. Tap **Thumbnail** to open the page thumbnail window;
3. Tap **Edit** on the toolbar at the top;

4. Select the pages that you want to delete, tap 🗑 , and then tap **OK** on the pop-up window.

**Tips:** you can swipe right on a page to popup the delete menu, tap 🗑 to delete the page.

Copy pages

1. Tap **View** on the document pane;
2. Tap **Thumbnail** to open the page thumbnail window;
3. Tap **Edit** on the toolbar at the top;

4. Select the pages that you want to copy, tap .

Annotate

Complete PDF Viewer provides feature-rich annotation tools to help you comment on PDF files.

- [Add a Text Markup](#)
- [Add a Drawing Markup](#)
- [Add Text Comment](#)
- [Add a Note Comment](#)
- [Add a File Attachment](#)
- [Add a Stamp](#)
- [Add an Image](#)
- [Measure Distance](#)
- [Add an Audio](#)
- [Add a Video](#)

Add a Video

1. Tap **Comment** on the toolbar;

2. Tap (⚬⚬⚬), and swipe left to choose (🎞) under "Others" tab;

3. Tap on the document where you want to add the video. On the pop-up window, choose "From Files" or "From Album" to select an existing video file, or choose "Recording Video" to start recording a new video. If you need to keep the tool selected to add videos continuously, tap (✍).

Note: *If you choose "Recording Video", you should tap "Allow" on the pop-up "Allow complete_pdf_viewer to take pictures and record video" window before starting to record.*
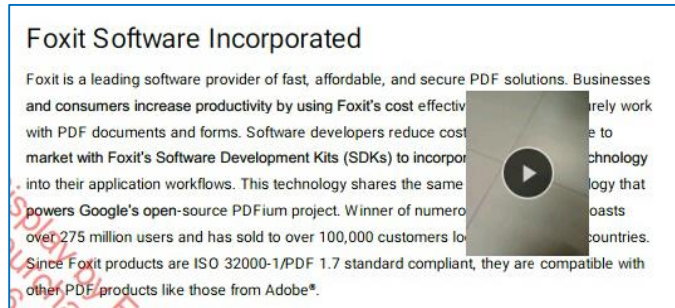

Undo and Redo the Last Action

Simply tap ⟲ or ⟳ on the toolbar at the top while adding comments.

Exit the Comment Mode

Simply tap ← on the toolbar at the top when in the comment mode.

Work on Comments

Change the Appearance of an Existing Comment

- For text markups/drawing markups/new text comments, tap the comment first, and then choose **Appearance** from the pop-up menu.

- For note comments: tap and hold on the comment first, and then choose **Appearance** from the pop-up menu.

Tip: Stamps are preset by Complete PDF Viewer. You cannot change the appearance of stamps.

Resize a Comment (Drawing Markups, Stamps, Images, Audios and Videos)

Tap the comment first, and then drag any of the handles to resize it.

Note: For audio and video comments, you should long press the audio or video to select it, and then drag any of the handles to resize it.

Move a Comment

- For drawing markups, new text comments and stamps, tap the comment first, and then drag it to the desired place.

- For note comments and attachments, tap and hold on the comment first, and then drag it to the desired place.

Flatten a Comment

- For text markups/drawing markups/new text comments and stamps, tap the comment first, and then choose **Flatten** from the pop-up menu.

- For note, audio and video comments, long press the comment, and then choose **Flatten** from the pop-up menu.

Select multiple comments

Tap **Comment** on the toolbar at the bottom, choose ⬚, and then drag to draw a rectangle area to select multiple comments.

Delete a Comment

Tap the comment first, and then choose **Delete** from the pop-up menu.

Note: For note, audio and video comments, long press the comment, choose "Delete" from the pop-up menu to delete the comment.

Tip: To Highlight, Underline, or Strikeout text, simply Press and Hold on any TEXT. To bring up the Annotation popup menu, just Press and Hold an empty area of a document.

Work with File Attachments

Complete PDF Viewer supports two kinds of file attachments: file attachment as a comment pinned in a specified location of the PDF document, and file attachment embedded in the PDF document. You can do the following with Complete PDF Viewer:

- View a File Attachment
- Add a File Attachment
- Manage File Attachments

View a File Attachment

If a PDF file contains file attachments, you can view the file attachments with Complete PDF Viewer by the following steps:

1. On the document pane, tap **List** to open the navigation panel;

2. Tap [attachment icon] to open the attachment pane;

3. Tap the attachment that you want to open.
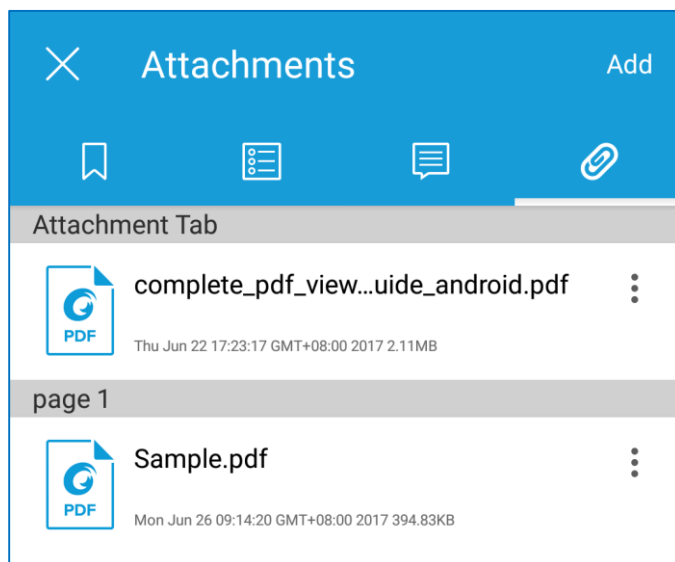

Tips:

1. While viewing the file attachment, you can tap ← on the toolbar at the top to return to the

parent document.

2. Complete PDF Viewer allows you to view PDF, Microsoft Office, TXT, and image files attached in the PDF file. For file attachments in other formats, you can open it with the supported application in your Android devices.

3. For the file attachments which are added as comments, you can also open them by tapping the file attachment icon directly.
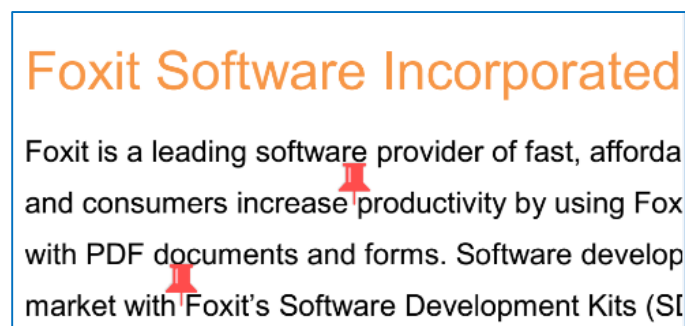

Add a File Attachment

You can add a file attachment with Complete PDF Viewer in two ways: add a file as a comment to a specific location in the document and attach a file to the document.

Add a File as a Comment to a Specific Location in the Document

1. On the document pane, tap **Comment** on the toolbar;

2. Tap ⬤⬤⬤ ;

3. Tap 🖹 (for some small-screen devices, you may need to swipe left to find it under "Others" tab);

4. Tap 🔴 to choose the style, fill color, and opacity of the attachment icon as desired from the toolbar. If you need to keep the tool selected to add files as comments continuously, tap 📌 ;

5. Tap on the document where you want to add the attachment;

6. Select one file, and tap **OK**.

Foxit Software Incorporated

Foxit is a leading software provider of fast, afforda
and consumers increase productivity by using Fox
with PDF documents and forms. Software develop
market with Foxit's Software Development Kits (SI

Tip: Files added in this way will be displayed as attachment icons in the document page, and will also be displayed in the attachment pane.

**Attach a File to the Document**

1. On the document pane, tap **List** to open the navigation panel;

2. Tap ![paperclip] to open the attachment pane;

3. Tap **Add;**

4. Select one file, and tap **OK**.

If you want to add a note to the file attachment, please follow the steps below:

1. Tap ⋮ besides the file attachment in the attachment pane;

2. Select **Description**;

3. Input the note as desired, and tap **OK**.

Tip: Files attached in this way are invisible in the page view, but you can find and open them in the attachment pane.

Manage File Attachments

Save File Attachment as a Copy

1. On the document pane, tap **List** to open the navigation panel;

2. Tap ![paperclip] to open the attachment pane;

3. Navigate through the list to find the attachment that you want to save as a copy;

4. Tap ⋮ beside the attachment, and tap **Save**;

5. Select the folder, and tap **OK**;

6. Input the file name, and tap **OK**.

Manage the Attachment Icon

For the file attachment pinned in a specific location of the document as a comment, an attachment icon will be displayed in the document.

● To change the appearance of the attachment icon: tap and hold on the icon -> select **Appearance** -> choose the option as desired;
● To move the attachment icon: tap and hold on the icon, and then drag it to the desired place.

Delete a File Attachment

1. On the document pane, tap **List** to open the navigation panel;

2. Tap ⧉ to open the attachment pane;

3. Navigate through the list to find the attachment that you want to delete;

4. Tap ⋮ beside the attachment, and tap **Delete**.

Tip: For the file attachment pinned to a specific location of the document as a comment, you can also delete it by the following steps:

• Tap and hold on the attachment icon, and choose **Delete** from the pop-up menu.

Add Signatures

Complete PDF Viewer provides a simple but useful signing tool to let you sign a PDF document with your personal signature.

- Create a Signature
- Sign a Document
- Verify a Digital Signature
- Edit a Saved Signature
- Clear a Saved Signature

Create a Signature

1. Tap **Sign** on the toolbar;

2. Tap ⚫ to choose the color and thickness as desired;

3. Draw your signature in the pane; you can tap ✎ to remove the signature;

4. If you want to create a signature with a digital certificate, follow the steps below:
    - ➢ Tap **Select and add certificate**;
    - ➢ Select a certificate from the list, input the password, and then confirm it;
    - ➢ Tap **OK**;

5. Tap 💾 to save the signature.

Tip:
1. If you have created and saved signatures previously in Complete PDF Viewer, you should tap **Sign** >

Signature List > **Create** icon when you want to create a new signature.

2. To create a signature with a digital certificate in Complete PDF Viewer, you need to save the digital certificate on your device before creating the signature.

Sign a Document

1. Tap **Sign** on the toolbar;
2. Tap on the document where you want to add the signature to. If you haven't saved a signature on the device previously, the **Tap to create a new signature panel** will appear. Please follow the steps in Create a Signature to create a signature first;
3. If necessary, drag the corner handle to resize the signature, or drag the signature to move it to the desired location;
4. Tap **Add Signature** to apply the signature;
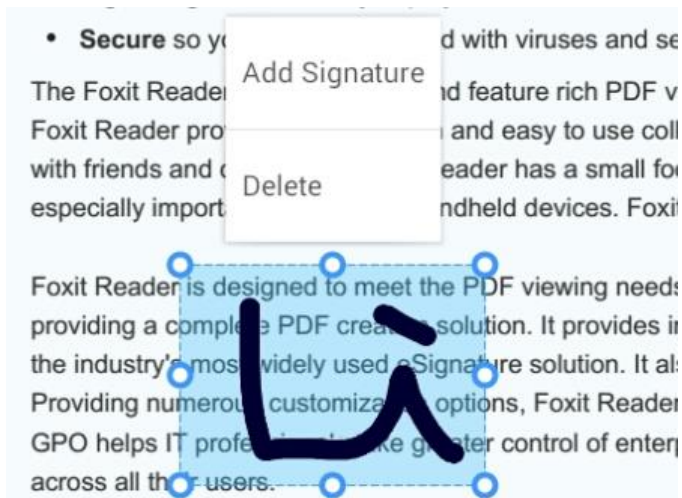

Tip: Once applied, the signature cannot be edited or moved. The signature and all other changes mode to the document will be saved.

Verify a Digital Signature

If a PDF document contains a digital signature, you can verify the digital signature to ensure that it is valid. The steps are as follows:

1. Open the signed PDF document with Complete PDF Viewer;
2. Tap the digital signature, and then select **Verify Signature**.

Edit a Saved Signature

1. Tap **Sign** on the toolbar;
2. Tap **Signature List** on the toolbar at the bottom to open the **Signature List** panel;
3. Tap ⋮ beside the signature that you want to edit, and choose **Edit**;
4. Edit the signature in the pop-up panel as desired, and tap 🖫 to save it.

Clear a Saved Signature

1. Tap **Sign** on the toolbar;
2. Tap **Signature List** on the toolbar at the bottom to open the **Signature List** panel;
3. Tap ⋮ beside the signature that you want to delete, and choose **Delete**.
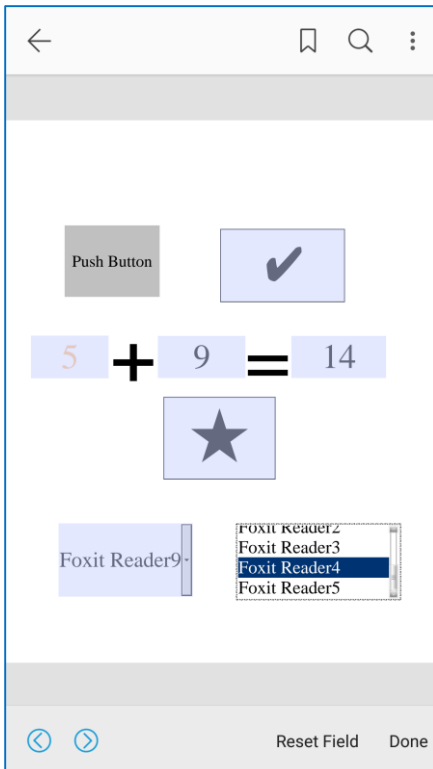

Fill in Forms

Complete PDF Viewer supports both the AcroForms and XFA forms which include the following PDF form features:

- [Fill Out PDF Form](#)
- [Reset Form Fields](#)
- [Import and Export Form Data](#)

Fill Out PDF Form

1. Tap the fillable form field, and input the text; you can tap ⦉‹⦊ or ⦉›⦊ to navigate through the form fields;
2. Upon completion, tap **Done** on the toolbar to save the PDF form.

Reset Form Fields

- To reset the current form field, tap **Reset Field** on the toolbar at the bottom;

● To reset all the form fields, tap ⋮ on the toolbar at the top, and choose **Reset Form Fields** under

the **Form** group.

Import and Export Form Data

To import form data:

1. On the document pane, tap ⋮ on the toolbar at the top;

2. Tap **Import Form Data** under the **Form** group;
3. Select the form data file (.xml file), and tap **OK**.

To export form data:

1. On the document pane, tap ⋮ on the toolbar at the top;

2. Tap **Export Form Data** under the **Form** group;
3. Input the file name;
4. Tap **OK**.

Print PDF Documents

Complete PDF Viewer supports to print PDF documents from version 5.1.

To print PDF documents:

1. On the document pane, tap ⋮ on the toolbar at the top;

2. Tap **Print File** under the Print group;
3. Set whether to print the annotations of the document, and then tap **OK**;
4. Set the options including paper size, orientation page range, and color/black & white print, as well
   as the number of copies (only when choosing a wireless printer);
5. Save the document as a print PDF, or choose a wireless printer to print the document.
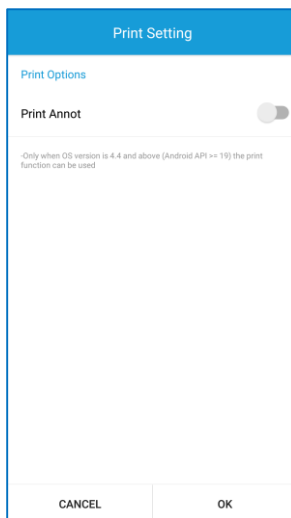

Capture Screen

Complete PDF Viewer supports screen capture feature from version 5.1.

To capture screen of PDF page:

1. On the document pane, tap ⋮ on the toolbar at the top;

2. Tap **Snapshot** under the FILE group;

3. Drag the rectangle area as desired, and then tap 💾 to save the image at

    "/mnt/sdcard/FoxitSDK/Images" directory.

Contact US

Complete PDF Viewer is built using Foxit PDF SDK for Android which is a Rapid Development Kit for Android platform that focuses on helping developers easily integrate powerful Foxit PDF technology into their own Android and iOS apps.
